Re: Your project No. 5-A 12808 - Released  
A comprehensive hypothesis for the syndrome of migraine  
headache including genesis, pathology, and treatment

Dear Dr. Gupta,

We take pleasure in informing you that, although your project has not been chosen for a Rolex Award, or an "Honourable Mention" award, its quality has nevertheless been noted so that it will be retained for inclusion in the book on the 1990 Rolex Awards which will be published around next spring. So that you may receive your five copies directly from the publishers, would you please keep us informed about any change of address?

Your project will also be included in a list of "Selected Projects" which will be set up in spring and distributed widely to international organisations, universities, associations, etc. Five copies of this list will be mailed to you in due course.

Hoping that these publications will contribute to the recognition of your project, we remain,

Yours sincerely,

THE SECRETARIAT  
THE ROLEX AWARDS FOR ENTERPRISE

  
C. Ricou
